

# LIFE DRAWING

## COME AND LET YOUR CREATIVITY RUN WILD!

This class offers a traditional approach to learning and improving your drawing skills with a focus on depicting the human form.

The course will take students through the basic techniques of shading, perspective and form using pencil and charcoal on paper, during sessions with a live model.

Drawing can be scary, but don't be afraid! Classes are friendly and supportive of your inner artist. This is a great opportunity to attend art studio drawing classes and increase your creative abilities.

Students enrol in 1 unit from the CUA20715 Certificate II in Visual Arts.
